## APPOINTMENTS

---

2013 – Present Chicago Botanic Garden - Associate Conservation Scientist  
2008 – Present Northwestern University - Adjunct Assistant Professor, Plant Biology and Conservation  
2008 – 2019 Chicago Botanic Garden - Manager, [Conservation & Land Management Internship Program](#)  
2008 – 2013 Chicago Botanic Garden - Assistant Conservation Scientist

## EDUCATION

---

2008 Ph.D. Ecology and Evolutionary Biology University of Connecticut. Storrs, CT  
Declining *Desmodium cuspidatum* (Muhl.ex Willd.) DC. Ex Loudon, Multiple approaches to a unique conservation problem. K. Holsinger (major advisor)  
2000 B.A. Major: Biology, Minor: Women's Studies Gustavus Adolphus College. St. Peter, MN

## LEADERSHIP APPOINTMENTS & TRAINING

---

2020 – 2022 [American Institute of Biological Sciences](#)  
Board member  
2018 – 2019 [Homeward Bound Project for Women in Science](#) Worldwide / Antarctica  
HB4 Team Member  
2007 [Environmental Leadership Program](#) New England Regional Network  
Senior Fellow

## PUBLICATIONS (\*student authors)

## RESEARCH GRANTS

---

- 2018 National Science Foundation: Unlocking the evolutionary history of a rapid Hawaiian Islands radiation with extraordinary breeding system diversity. DEB 1752785. PIS: A. Sakai, S. Weller (UC Irvine); N. Wickett (CBG); M. Moore (Oberlin College); W. Wagner (Smithsonian Institution). Senior Personnel: **K. Skogen**, L. Weisenberger. \$1,065,581
- 2013 National Science Foundation: [Dimensions of Biodiversity. Landscapes of linalool: scent-mediated diversification of flowers and moths across western North America](#). DEB 1342873  
**Lead PI: K. Skogen**. Co-PIs: J. Fant, N. Wickett (CBG); R. Raguso (Cornell University); R. Levin (Amherst College). 2013. Total: CBG: \$1,459,382
- 2011 National Science Foundation MRI: Acquisition of a Seed X-ray Machine at Chicago Botanic Garden. DBI 1125997. Lead PI: K. Havens, Co-PIs: P. Vitt, S. Wagenius, **K. Skogen**, J. Fant. \$136,597
- 2009 National Science Foundation MRI: Acquisition of Conservation Geographic Information Systems (GIS) DBI 0922995. Instrumentation. Lead PI: K. Havens, Co-PIs: P. Vitt, D. Larkin, **K. Skogen**, and J. Fant. \$305,389
- 2009 National Fish and Wildlife Foundation, Native Plant Conservation Initiative. Co-PIs: J. Fant, D. Larkin, **K. Skogen**, E. Yates. \$40,000
- 2008 Colorado Native Plant Society, Steinkamp Research Grant. \$800.
- 2006 Environmental Protection Agency, Science to Achieve Results Graduate Fellowship. \$110,000  
 National Science Foundation, Doctoral Dissertation Improvement Grant. \$11,990
- 2005 Torrey Botanical Society, Research Fellowship. \$2,500  
 Center for Conservation and Biodiversity, University of Connecticut. Research Grant. \$750

- 2004 Botanical Society of America, Karling Graduate Student Research Award. \$500
- 2004 New England Botanical Club, Graduate Research Grant. \$1,055  
Center for Conservation and Biodiversity, University of Connecticut. Research Grant. \$750
- 2003-2007 Ronald Bamford Endowment, Graduate Research Grant. University of Connecticut. \$5,000
- 2003 Summer Institute in Statistical Genetics, North Carolina State University, NC. Scholarship. \$1,000
- 2003 National Science Foundation & New England Wild Flower Society.  
Conservation Biology Fellow. \$4,000
- 1999 Sigma Xi Scientific Research Society, Research Grant. \$500

## **FEDERAL & NON-PROFIT GRANT & PROGRAM MANAGEMENT**

### **2008 – 2019 Conservation and Land Management Internship Program**

**\$28.5+ million total funding**

**1,160+ interns**

Coordinated federal funding (Assistance and Cooperative Agreements) for the Conservation and Land Management Internship Program with federal and non-profit partners including Bureau of Land Management (BLM), Botanic Garden Conservation International (BGCI), Center for Plant Conservation (CPC), Greenbelt Native Plant Center (GNPC), National Park Service (NPS), USDA Forest Service (FS), US Fish and Wildlife Service (FWS), USDA Forest Service (FS), and US Geologic Survey (USGS).

Led recruitment, application procedures, interviewing, hiring and data management for all interns. Managed support staff (CLM Program Coordinator & Program Assistants).

- 2019 **Total funding: \$750,000; 33 interns**  
BLM (21 interns), FS (6 interns), FWS (3 interns)
- 2018 **Total funding: \$1.43 million; 65 interns**  
BLM (52 interns), NPS (1 intern), FS (10 interns), FWS (2 interns)
- 2017 **Total funding: \$4.05 million; 137 interns**  
BLM (123 interns), NPS (1 intern), FS (10 interns), FWS (2 interns), USGS (1 intern)
- 2016 **Total funding: \$3.6 million; 128 interns**  
BLM (117 interns), NPS (3 interns), FS (5 interns), FWS (3 interns)
- 2015 **Total funding: \$3.6 million; 119 interns**  
BLM (100 interns), NPS (3 interns), FS (8 interns), FWS (3 interns), USGS (4 interns),  
GNPC (1 intern)
- 2014 **Total funding: \$2.7 million; 123 interns**  
BLM (109 interns), NPS (1 interns), FS (6 interns), FWS (2 interns), USGS (4 interns),  
GNPC (1 intern)
- 2013 **Total funding: \$2.3 million; 88 interns**  
BLM (76 interns), NPS (3 interns), FWS (4 interns), USGS (4 interns), GNPC (1 intern)
- 2012 **Total funding: \$2.5 million; 95 interns**  
BLM (88 interns), NPS (2 interns), FS (1 intern), FWS (3 interns), USGS (2 interns),  
GNPC (1 intern)
- 2011 **Total funding: \$2.2 million; 99 interns**  
BLM (81 interns), NPS (2 interns), FS (6 interns), FWS (2 interns), USGS (2 interns), CPC (4 interns)
- 2010 **Total funding: \$2.8 million; 134 interns**  
BLM (128 interns), NPS (5 interns), BGCI (1 intern)
- 2009 **Total funding: \$1.6 million; 84 interns**  
BLM (64 interns), NPS (14 interns), FS (4 interns), BGCI (2 interns)
- 2008 **Total funding: \$990,000; 55 interns**  
BLM (54 interns), NPS (1 intern)

## **AWARDS**

---

- 2016 Public Policy Award, Botanical Society of America
- 2010 Employee of Distinction, Chicago Botanic Garden
- 2008 Outstanding Academic Achievement, University of Connecticut - Provost's Commission on the Status of Women & The Women's Center
- 2006 Alternate Fellow, Robert and Patricia Switzer Foundation
- 2004 Outstanding Teaching Assistant, Nominee. University of Connecticut. Ecology & Evolutionary Biology Department
- 2000 Special Recognition Award, Gustavus Adolphus College, Biology Dept.  
Elected member, Sigma Xi Scientific Research Society.

## **PUBLIC POLICY INVOLVEMENT**

---

- 2019 – present Plant Conservation Alliance – Non-Federal Cooperators Committee. *Co-chair*.  
Coordinate outreach, education, and advocacy for the [Botany Bill](#), [H.R. 1572](#) and [S.2384](#).
- 2017 - present Botanical Society of America. Public Policy Committee. *Co-chair*.
- 2016 – 2018 [H.R. 1054 – Botanical Sciences and Native Plant Materials Research, Restoration, and Promotion Act](#). *Science advisor*.  
Provided feedback on drafts of the Bill and helped advocate for bi-partisan co-sponsorship.
- 2017 Congressional visits on Capitol Hill. Offices of Sen. Duckworth (IL), Rep. Schneider (IL-10)  
American Institute of Biological Sciences – Science Communication Boot Camp. February.
- 2016 Congressional visits on Capitol Hill. Offices of Sen. Durbin (IL), Rep. Schneider (IL-10)  
Ecological and Biological Sciences Coalition.
- 2013 – 2017 Botanical Society of America. Public Policy Committee. *Committee member*.

## **INVITED LECTURES & SEMINARS**

---

- 2020 [GirlConChicago](#) – Invited keynote Speaker. Chicago, IL. June  
What Antarctica can teach us about successful careers in STEMM & how hawkmoths can help plant species overcome challenges imposed by anthropogenic land-use change. The College of Wooster. Wooster, OH. January
- 2019 Floral traits, friends and foes: nocturnal pollination and herbivory in the evening primrose family, Onagraceae. Departmental Seminar. University of Arkansas. April
- 2018 The unsung heroes and villains of the night – nocturnal pollination and herbivory in the evening primrose family, Onagraceae. 65<sup>th</sup> Annual Fall Symposium – Biota of North America: what we know, what we don't know and what we're losing. Missouri Botanical Garden. October
- Scent-mediated diversification – is floral scent at the center of interactions among plants, pollinators and antagonists? Departmental Seminar. Rancho Santa Ana Botanic Garden. March
- Scent-mediated diversification – is floral scent at the center of interactions among plants, pollinators and antagonists? Biology Departmental Seminar. University of Wisconsin-Milwaukee. February
- 2017 Is floral scent at the nexus of interactions among plants, pollinators and herbivores? Biology Departmental Seminar. Texas Tech University. April
- 2016 Flowers smell – who cares? Pollinators, herbivores and evening primroses. When floral scent attracts your friends and enemies. Biology Departmental Seminar. Lake Forest College. October
- 2015 Moths and nocturnal pollination – similarities and differences with diurnal pollinators and the threats they face. Green Matters 2015 Symposium – Protecting our Pollinators. Brookside Gardens and Montgomery Parks, Maryland. 200 attendees. February
- Scent-mediated diversification: - Is floral scent at the center of interactions among evening primroses, pollinators, and parasites? Ecology and Evolution Departmental Seminar. University of Illinois – Chicago. January
- 2014 Scent-mediated diversification: - Is floral scent at the center of interactions among evening primroses, pollinators, and parasites? Entomology Departmental Seminar. University of Wisconsin – Madison. October

- Pollinators, parasites and floral diversity – assessing the role of mutualism in plant diversity in Onagraceae. 2014 Plant Science Symposium. The Field Museum, Chicago, IL. April
- Floral traits & plant diversification – pollinators get the credit but are floral antagonists the unsung heroes? Biology Departmental Seminar. Oberlin College, Oberlin, OH. April
- 2013 Vagrant pollinators, fragrant plants - geographic variation in floral scent despite hawkmoth-mediated gene flow linking isolated populations. Biology Departmental Seminar. University of Wisconsin, Whitewater. April
- Vagrant pollinators, fragrant plants - geographic variation in floral scent despite hawkmoth-mediated gene flow linking isolated populations. Biology Departmental Seminar. Bucknell University, Lewisburg, PA. March
- 2010 Does fragmentation negatively impact plant species pollinated by long-distance dispersers? Variation in floral advertisements, rewards and neutral genetic markers in *Oenothera harringtonii*. Botany Departmental Seminar. The Field Museum. Chicago, IL. April
- 2008 Same but different: using a similar synthetic approach to illuminate the causes and consequences of species decline in two unrelated plant species. Biology Departmental Seminar. Lawrence University, Appleton, WI. December
- Declining *Desmodium*: Multiple approaches to solving a unique conservation problem. Plant Biology and Conservation Departmental Seminar. Northwestern University, Evanston, IL. October
- Declining *Desmodium*: Multiple approaches to solving a unique conservation problem. Biology Departmental Seminar. Central Connecticut State University, New Britain, CT. February
- Using scientific data to inform plant conservation decisions. Guest Lecturer, Biology 327, Vascular Plants. Central Connecticut State University, New Britain, CT. February

## **POSTDOCS MENTORED**

---

- Tania Jogesh. 2014 – 2018. Supported by the NSF-funded Dimensions of Biodiversity: Landscapes of Linalool Project (DEB 1342873).  
Current Position: Data Scientist, City of San Francisco.
- Rick Overson. 2014 – 2017. Supported by the NSF-funded Dimensions of Biodiversity: Landscapes of Linalool Project (DEB 1342873).  
Current Position: Research Manager, Cease Lab, Julie Ann Wrigley Global Institute of Sustainability. Arizona State University.

## **GRADUATE STUDENTS ADVISED – MAJOR ADVISOR**

---

14 Total: 11 M.S., 3 Ph.D. - 10 underrepresented in STEM; 10 women

- Reed Benkendorf (Northwestern University, M.S. expected 2021)
- Haley Carter (Northwestern University, M.S. expected 2021)
- Susan Deans (Northwestern University, Ph.D. expected 2023)
- Katie Wenzel (Northwestern University, Ph.D. expected 2020), Co-advisor
- Katherine Andrews (Northwestern University, M.S. 2019) Precipitation frequency negatively impacts plant survivorship, growth, phenology and herbivory in *Oenothera harringtonii*.  
Current Position: Director of Cultivation, Standards and Practices, Cresco Labs
- Kelly Mikenas (Northwestern University, Ph.D. 2017) The Potential of Green Roofs to Provide Habitat for Native Plant Conservation.  
Current Position: Lecturer, Biology Department, Elmhurst College.
- Dan Bruzesse (Northwestern University, M.S. 2016) Host use and diversification of the genus *Mompha* (Lepidoptera: Gelechioidea: Momphidae).  
Current Position: Ph.D. student in Jeff Feder's lab at the University of Notre Dame.
- Ben Cooper (Northwestern University, M.S. 2016) Revealing patterns of evolution in a recently radiated plant group, the Sundrops (*Oenothera* Section *Calylophus*: Onagraceae) using target enrichment.  
Current Position: Data analyst, National Park Service, Las Cruces, NM.
- Emily Lewis (Northwestern University, M.S. 2015) Differences in population genetic structure of hawkmoth- and bee-pollinated species of *Oenothera* (Onagraceae) are more pronounced at a landscape scale.  
Current Position: Graduate coordinator. Math Department, Washington State University.

- Matthew Rhodes (Northwestern University, M.S. 2013) Spatial genetic structure and nonrandom pollination success in *Oenothera harringtonii* (Onagraceae).  
Current Position: Ecological consultant, Lander, WY.
- Ricardo Rivera (Northwestern University, M.S. 2013) Quantitative genetics in a fragmented landscape, a study of heritable floral traits in *Oenothera harringtonii* (Onagraceae).  
Current Position: Ph.D. candidate. Erika Marin Spiotta's lab at the University of Wisconsin, Madison.
- Rebecca Barak (Northwestern University, M.S. 2012) Species interactions between native forbs and invasive cheatgrass (*Bromus tectorum* L.) in the Colorado Plateau.  
Current Position: David H. Smith Conservation Postdoctoral Fellow, Chicago Botanic Garden, Purdue University and Michigan State University.
- Emily Booth (Northwestern University, M.S. 2011) Potential effects of climate change on *Penstemon palmeri* at Zion National Park, Utah, U.S.A.  
Current Position: Postdoctoral researcher, Brent Sewall's lab at Temple University.
- Melissa Gray (Northwestern University, M.S. 2011) The effects of floral density manipulation on the pollination and reproductive success of *Penstemon pachyphyllus*.  
Current Position: Assistant editor in Plant and Environmental Science at Encyclopedia Britannica.

### **GRADUATE STUDENTS ADVISED – COMMITTEE MEMBER**

12 Total: 10 M.S., 2 Ph.D. - 10 underrepresented in STEM; 9 women

- Kristen Manion (Northwestern University, M.S. expected 2020)
- Anita Cisternas-Fuentes (Northwestern University, Ph.D. expected 2020)
- Marie Faust (Northwestern University, M.S. 2019) Pollinator mediated reproductive consequences of altered co-flowering under climate change depend on abiotic context.
- Elliot Gardner (Northwestern University, Ph.D. 2017) Evolutionary transitions: Phylogenomics and pollination of *Artocarpus* (Moraceae).
- Christopher Warneke (Northwestern University, M.S. 2015) Host preferences of biocontrol weevils on a threatened thistle and an invasive weed: implications for management and conservation.
- Laney Widener (Northwestern University, M.S. 2014) Reproductive isolation and genetic divergence in the *Castilleja affinis* subspecies complex.
- Anna Braum (Northwestern University, M.S. 2014) Investigating the drivers of floral trait polymorphism in *Castilleja coccinea* (L.) Sprengel. (Orbanaceae)
- Karen Taira (Northwestern University, M.S. 2013) Does style persistence measure pollen limitation in perennial *Helianthus* species?
- Byron Tsang (Northwestern University, M.S. 2012) Environmental factors affecting woodland legume restoration. Committee Member.
- Kelly Ksiazek (Northwestern University, M.S. 2011) Patterns of Pollen Limitation and Seed Set on Chicago Green Roofs. Committee Member.
- Megan Kate Gallagher (Northwestern University, M.S., 2011) Plant Performance in prairie restorations: Does seed source matter? Committee Member
- Megan Jensen (Northwestern University, M.S., 2010) Breeding system assessment in a prairie plant community. Committee Member.

### **RESEARCH ASSISTANTS, UNDERGRADUATE & HIGH SCHOOL STUDENTS MENTORED**

31 Total - 24 underrepresented in STEM; 23 women

- Yessinia Rodriguez. Lake Forest Open Lands - Center for Conservation Leadership intern & high school student. July 2019 – present.
- Chris Woolridge. Research Assistant. Sept 2017 – present.
- Haley Carter. Research Assistant. July 2017 – Sept 2018.
- Laura Fehling (University of Wisconsin – Green Bay) REU Student: Summer 2018. Impact of drought on plant-herbivore interactions.
- Lindsey Bechen. Research Assistant. July 2016 – July 2018.
- Casey Beidelman (Northwestern University) Research intern. Summer 2017.
- Andrea Gruver. Research Assistant. July 2015 – Aug 2017.

Sydney Weil (Amherst College) Research intern: Summer 2017.

Melissa Vergara (University of California – Santa Cruz) REU Student: Spring 2017. Botanical Society of America PLANTS award recipient, 2017. Do herbivores prefer flower buds over leaves? Evaluating caterpillar preferences in evening primroses (Onagraceae).

Victoria Luizzi (Amherst College) REU Student: Summer 2016.

Emily Lewis. Research Assistant. July 2015 – August 2016.

Katherine Andrews (Lake Forest College, 2015). Research intern 2014-2016.

Evan Hilpman. Research Assistant. May 2008 – May 2013, May 2014 – July 2015. Senior thesis co-advisor, Colorado College, 2010. Genetic analysis of a Colorado endemic threatened by anthropogenic landscape alteration: *Oenothera harringtonii* (Onagraceae).

Matt Rhodes. Research Assistant. May 2012 – July 2015.

Taylor Tate (Northwestern University, 2017). Research intern: Summer 2015. Northwestern University. Summer Undergraduate Research Award recipient.

Evan Levy (Colorado College, expected 2016). REU Student: Summer 2015. Floral preference of bees in a montane meadow in Flagstaff, AZ.

Adam Rork (Maryville University, expected 2017). REU Student: Summer 2015. A comparison of pollination and herbivory between two chemotypes of *Oenothera harringtonii*.

Lindsey Bechen (Amherst College, 2016). Research intern: Summer 2015. Heritability of linalool and gene-expression of floral scent in *Oenothera harringtonii*

Amanda Patsis (Amherst College, 2017). Research intern: Summer 2015. The evolutionary history of evening primroses (Onagraceae) using exon-capture and next-gen sequencing

Andrea Gruver (Gustavus Adolphus College, 2015). REU Student. Summer 2014. Population genetics of *Hyles lineata* using CO1

James Medina (Oberlin College, 2015). Research Assistant. Summer 2012, Jan 2013, Summer 2013.

Sadie Todd (University of Missouri, Columbia, 2010). Research Assistant. May 2009 – May 2013.

Kathleen (KC) West (Claremont McKenna College, 2012). Research Assistant. 2012-2013.

Heather-Rose Kates (Oberlin College, 2011). REU Student: Summer 2010. Variation in floral morphology in *Oenothera harringtonii*.

Carrie Klase (Warren Wilson College, 2012). REU Student: Summer 2009. *Oenothera harringtonii* fruit and seed morphology, weight, and seed viability analyses.

Quincy Roberts (Lake Forest College, 2009). Research Intern. 2008 – 2009.

Logan Senack (University of Connecticut, University Scholar and Honors Student, 2008). Senior thesis co-advisor: 2006 –2008. Seed size, germination, and the effects of herbivory in rare and common *Desmodium* species.

Susan Kim (University of Connecticut). Undergraduate research assistant. 2007.

Kathryn Sturgeon (University of Connecticut). Undergraduate research assistant. 2005 – 2006.

Claudette Casile (University of Connecticut, Honors student). Undergraduate research assistant. 2005.

Meagan Ridder (University of Connecticut) Garden Club of America Scholar. 2004.

## TEACHING

---

*Current Topics in Ecology and Conservation, Instructor*  
 Northwestern University, Evanston, IL  
 Plant Science and Conservation

Winter 2009 - 2011, Fall 2011 – 2019

This course provides students with the conceptual and theoretical framework within the field of ecology (especially plant biology) and conservation. This seminar-style class is based on reading and discussion of historical literature paired with more recent research. It provides students with the opportunity to think critically and discuss their thoughts within a structured yet informal setting and provides them with a basic background in reading and writing scientific papers.

*Field & Laboratory Methods in Plant Biology & Conservation, Co-Instructor* Fall 2009 - 2019  
 Northwestern University, Evanston, IL  
 Plant Science and Conservation

The goals of this course are to (1) familiarize students with various tools and techniques used frequently in the plant biology and conservation research, (2) provide students hands-on experience with a variety of field

and laboratory methods used in plant biology and conservation research, and (3) ensure that students complete the course feeling confident in their ability to select and implement the appropriate methods to address a variety of research questions.

*Current Topics in Ecology & Evolutionary Biology, Co-instructor* Spring and Fall 2007

University of Connecticut, Storrs, CT

Department of Ecology and Evolutionary Biology

Weekly undergraduate seminar designed around the EEB weekly seminar series.

*Developmental Plant Morphology, Teaching Assistant* Fall 2004

University of Connecticut, Storrs, CT

Department of Ecology and Evolutionary Biology

*Introduction to Botany, Teaching Assistant* Fall 2003

University of Connecticut, Storrs, CT

Department of Ecology and Evolutionary Biology

*Principles of Biology, Teaching Assistant* Fall 2002, Spring 2003

University of Connecticut, Storrs, CT

Department of Ecology and Evolutionary Biology

## **SERVICE**

---

- 2020 – 2022 American Institute of Biological Sciences. Board Member.  
2018 – 2021 American Society of Plant Taxonomists. Promotional Materials Committee member.  
2015 – present Botanical Society of America. Northwestern University Student Chapter. Faculty Rep.  
2017 – 2019 Pollinators in the Garden – year-long theme for Chicago Botanic Garden, 2019.  
Steering Committee member, Science Advisor.  
2016 – 2019 Graduate Program in Plant Biology and Conservation. Master’s committee member.  
Northwestern University and Chicago Botanic Garden.  
2011 – 2019 Graduate Program in Plant Biology and Conservation. Curriculum committee member.  
Northwestern University and Chicago Botanic Garden.  
2013 Buell & Braun Student Presentation/Poster Awards. Judge. Ecological Society of America.  
Annual meeting, Portland, OR.  
2011, 2012 Graduate Program in Plant Biology and Conservation. Master’s committee member.  
Northwestern University and Chicago Botanic Garden.  
2010-2011 Botanical Society of America. Certifying Botanists Committee. Steering committee member.  
2007 Science, Engineering and Health Professions Collaborative Symposium to promote  
minorities in the sciences. Ecology and Evolutionary Biology Department representative.  
University of Connecticut.  
2006 Board of Trustees Distinguished Professor Advisory Committee. Committee member and  
graduate student representative. University of Connecticut.  
2006 – 2008 Center for Conservation and Biodiversity. Committee member and graduate student  
representative. University of Connecticut.  
2005 Board of Trustees Distinguished Professor Advisory Committee.  
Committee member and graduate student representative. University of Connecticut.  
2004-2005 Society for Conservation Biology. Student Advisory Committee member.  
2002-2003 Graduate Student Senate Elected Senator, representing the Ecology and Evolutionary  
Biology. University of Connecticut.

## **ORGANIZED SYMPOSIA AND MEETINGS**

---

- 2018 Botanical Society of America. Using Our Science to Inform Policy.  
*Workshop co-organizer/moderator.*
- 2009 - 2018 BSA 2018 Annual meeting, Rochester, MN.  
 Conservation and Land Management Internship Program Training Workshop.  
*Committee chair.*  
 2009, 2010: Albright Training Center - Grand Canyon National Park  
 2011 – 2018: Chicago Botanic Garden  
 ~75 CLM interns and 10-15 instructors annually.  
 Sessions on plant inventorying and monitoring, field botany and conservation genetics, etc.
- 2010 Botanical Society of America. Plant/Pollinator Interactions in Fragmented Landscapes.  
*Symposium Co-organizer.*
- 2006 BSA Annual Meeting, Providence, RI.  
 15<sup>th</sup> Annual Graduate Student Symposium.  
*Committee member.*  
 Ecology and Evolutionary Biology Department, University of Connecticut.
- 2004 Northeast Ecology and Evolution Conference  
*Co-chair member, Organizing and Fundraising Committees.*  
 University of Connecticut, Storrs, CT.  
 Raised \$23,000; Oversaw 4 committees (Abstract/Program, Registration, Website and Internal Recruiting Committees); 210 participants; 135 presentations (oral and poster).

## PROPOSAL REVIEWER

---

2019/2020	American Philosophical Society. Lewis and Clark Fund for Exploration and Field Research.
2019	American Society of Plant Taxonomists. Graduate Student Research Awards. University of Wisconsin-Milwaukee. Research Growth Initiative. External reviewer.
2018	National Science Foundation. Dimensions of Biodiversity. Ad hoc reviewer.
2017	National Science Foundation. Dimensions of Biodiversity. Ad hoc reviewer.
2016	National Science Foundation. Dimensions of Biodiversity. Panelist.
2010 – 2013	Botanical Society of America. Karling and Graduate Student Research Awards.
2008, 2010, 2013.	Graduate Program in Plant Biology and Conservation. Northwestern University and Chicago Botanic Garden. Master's graduate research award reviewer.

## OUTREACH

---

2020	<b>Ice Cream and Antarctica – Insights on Women in STEMM leadership program and Antarctic Expedition.</b> Hosted by Wooster Women in STEM, MiSTEM, and the STEM Success Initiative. College of Wooster. Wooster, OH. January.
2019	<b>Antarctic Expedition &amp; Importance of Diversity and Women in STEMM</b> <a href="#">Oak Terrace Elementary School</a> . Highwood, IL. November 3 <sup>rd</sup> (~100 students) and 5 <sup>th</sup> grade students (~100 students) Dual language school. 75% Hispanic. 70% low income. 62% limited English. <a href="#">Nuestro Center</a> . Highwood, IL – 1-5 <sup>th</sup> grades (40 students). November <a href="#">Woodland Elementary School</a> , Gurnee, IL. November 2 <sup>nd</sup> & 3 <sup>rd</sup> grade Art Classes (100 students) 58% Minority, 36% low income. 20% limited English. Girl Scouts Troop 45764 - 2 <sup>nd</sup> & 3 <sup>rd</sup> grades (16 students). November <b><a href="#">Botanical Mystery Tour – Episode 6: The Silence of the Lambs and the Death's Head Hawkmoth.</a></b> Podcast. <i>Featured scientist</i> . Featured scientist - discussed the science behind the Silence of the Lambs, death's head hawkmoths, and challenges faced by women in STEM. 25 July <b>Lake Forest Open Lands - Center for Conservation Leadership Internship.</b> <i>Mentor</i> to high school student developing and executing year-long service project. <b>After Hours Buzz – Nocturnal Pollination.</b> Chicago Botanic Garden event for Bees and Beyond annual theme. <i>Featured scientist</i> , lecture on moth pollination. July 11, 25. <b>Bee Buzz – Conservation Cocktails.</b> Lake Forest Open Lands – Melody Farm Nature Preserve. <i>Featured scientist</i> , lecture and nature walk focused on bee and moth pollination. June.
2018	<b>Conservation Corps Conference</b> – Forest Preserves of Cook County. <i>Career panelist</i> . Chicago Botanic Garden October 11 <sup>th</sup> <b><a href="#">The Shape of the World – Episode 4: Secret in the Scented Night.</a></b> Podcast. <i>Featured scientist</i> . Host Jill Riddell discusses my research and career in science. 12 May. <b><a href="#">Experimental Words – Poetry Slam</a></b> <i>Science-Poetry collaboration</i> . As one of 5 scientists paired with Chicago-area poets, I created and performed poems inspired by my research on hawkmoth pollination and <a href="#">José Olivarez's</a> poetry. U.S. premier performance project from Manchester, U.K.-based scientist Sam Illingworth, Ph.D., and poet Dan Simpson. Chicago Botanic Garden. April 20

- [Project Exploration – Sisters 4 Science](#). *STEM Scientist Instructor*  
 - Ariel Community Academy, Chicago, IL.  
 98% Black, 81% low income. 14% diverse learners.
- 2017 **Soho House Pollinator Awareness Event** *Panelist*.  
 Co-hosted by the Pollinator Partnership, SproutModern, and Soho House. Chicago.
- Girl Scouts of Greater Chicago and Northwest Indiana.** *Panelist*.  
 Imagine your future – Environmental Scientist Edition. Discussed my career in science and research with 4<sup>th</sup>-8<sup>th</sup> grade girls to increase exposure to careers in science.
- [Project Exploration – Sisters 4 Science](#). *STEM Scientist Instructor*  
 After school program for young girls from underrepresented communities in Chicago elementary and middle school. Each session is led by a female scientist who emphasize leadership development through scientific exploration. [www.projectexploration.org](http://www.projectexploration.org)  
 Discussed my career background, a day in the life of a scientist, and lead a hands-on experiment focused on flowers and pollinators.
- Carter G. Woodson North Middle School, Chicago, IL.  
 96% Black, 3% Hispanic. 97% low income. 20% diverse learners.
- Frederick Funston Elementary School, Chicago, IL.  
 91% Hispanic, 9% Black. 96% low income. 18% diverse learners. 42% limited English.
- Oak Terrace Elementary School**  
 Dual language school. 75% Hispanic. 70% low income. 62% limited English.
- Ecology Club - Discussed my career background, a day in the life of a scientist, and assisted in the development of a pollinator-friendly native plant garden.
- Kindergarten - Developing hands-on activities for outdoor classroom
- 2015 **Work-life Balance in Academia**, *Panelist*. Northwestern University.  
 Co-hosted by Graduate Women Across Northwestern, Association for Women in Chemistry, and Women in Philosophy.
- 2013 – 2015 **Woman in Science, Pollinators and Pollination.**  
 Presentation to 50+ elementary and middle school students.
- YWCA Lake County Tech GYRLS summer program  
 - Catherine Cook School, Chicago, IL.
- 2013 [Plants Are Cool, Too! Episode 4 - Desert Blooms and Marathon Moths](#). *Featured Scientist*. Dr. Chris Martine, host of the YouTube series, joins Krissa Skogen in New Mexico's White Sands National Monument and finds plant romance happening by the light of the full moon. Hawkmoths fly for miles each night in search of flower nectar - and are thus critically important as pollinators of desert wildflowers. 17 Oct
- 2011, 2013 **Girl Scouts of America.** *Female Scientist Mentor*  
 Worked with troops to earn their 'Meet a Female Scientist' and 'Plant Life' badges.
- 2012 **NorthShore Homeschool Group.**  
 AP Biology. Taught plant reproduction, pollination, and genetics sessions.
- Starbucks Corporation Executive NonProfit Volunteer Day.**  
 Volunteers learned about my research and collected fitness data.
- 2011 **CBG Dixon National Tallgrass Prairie Seed Bank**  
 Volunteers learned about my research and collected fitness data.
- 2009 - 2010 **Planting Science**  
 Science mentor to high school students on their botany research project.
- 2005 **Middle School Biodiversity Curriculum Development**  
 Developed a biodiversity curriculum for CT 6th grade teachers incorporating concepts in Ecology and Evolutionary Biology, coordinated with the Education Department, University of Connecticut.

## **PROFESSIONAL ASSOCIATIONS**

---

Botanical Society of America (2003)	Society for Conservation Biology (2003)
Ecological Society of America (2008)	New England Botanical Society (2003)
Graduate Women in Science (2006)	Torrey Botanical Society (2003)
Association for Women in Science (2006)	The Nature Conservancy (2002)
Union of Concerned Scientists (2003)	Sigma Xi Scientific Research Society (2000)

## **OTHER PROFESSIONAL EXPERIENCE**

---

National Research Council Assessment of Research Doctorate Programs, National Academies of Sciences  
University of Connecticut, Storrs, CT 2006 – 2007

*Graduate Assistant*

Collected and compiled data on doctoral students, faculty and doctoral programs.

Teachers for a New Era Program, Department of Education 2005

University of Connecticut, Storrs, CT

*Graduate Assistant*

Developed biodiversity curriculum for Connecticut 6th grade teachers incorporating ecology and evolutionary biology. Emphasis on hands-on and interactive learning in the classroom and outdoors.

National Science Foundation/New England Wildflower Society 2003

*Conservation Research Fellow*

Investigated the causes of decline in New England populations of the large-bracted tick-trefoil, *Desmodium cuspidatum* (Fabaceae).

Argonne National Laboratory, Argonne, IL 2001 - 2002

*Environmental Research Division, Research Aide* (R. Mike Miller, Julie Jastrow)

Studied effects of ambient and elevated CO<sub>2</sub> on soybean root growth and associated mycorrhizae using free-air CO<sub>2</sub> enrichment (FACE) rings in association with the SoyFACE Project at the University of Illinois, Urbana-Champaign.

Chicago Botanic Garden, Glencoe, IL 2000 - 2001

*Conservation Science Department Intern, Research Intern* (Suzanne Masi, Kay Havens, Pati Vitt)

Assisted on numerous projects including: Endangered and Threatened Plants of Cook County Inventory, Flora of Cook County Project, Herbarium teaching collection, Baseline demographic data and genetic analysis of *Viola conspersa*, reproductive studies of *Platanthera leucophaea*, and outbreeding depression study of *Lobelia cardinalis* and *L. siphilitica*.

Gustavus Adolphus College, St. Peter, MN 1998 - 2000

*Plant Ecology Research Lab, Sigma Xi funded research* (Cindy Johnson-Groh)

Rare plant ecology research on *Botrychium* ferns: distribution and abundance of underground reproductive structures (gametophytes, gemmae, and juvenile sporophytes).

University of Arizona, Tucson, AZ January 2000

*Plant Pathology Department, Intern* (Martha Hawes)

Aluminum toxicity tolerance/avoidance of pea and alfalfa root border cells.

Gustavus Adolphus College, St. Peter, MN 1999

*Plant Ecology Research Lab, Research Assistant* (Cindy Johnson-Groh)

Vegetation map of Gustavus Adolphus College and Linnaeus Arboretum, St. Peter, MN

North Dakota State University, Fargo, ND 1997

*Department of Plant Sciences, Research Assistant*
